Baffle Type Grease Filter

Standard Baffle Grease Filter

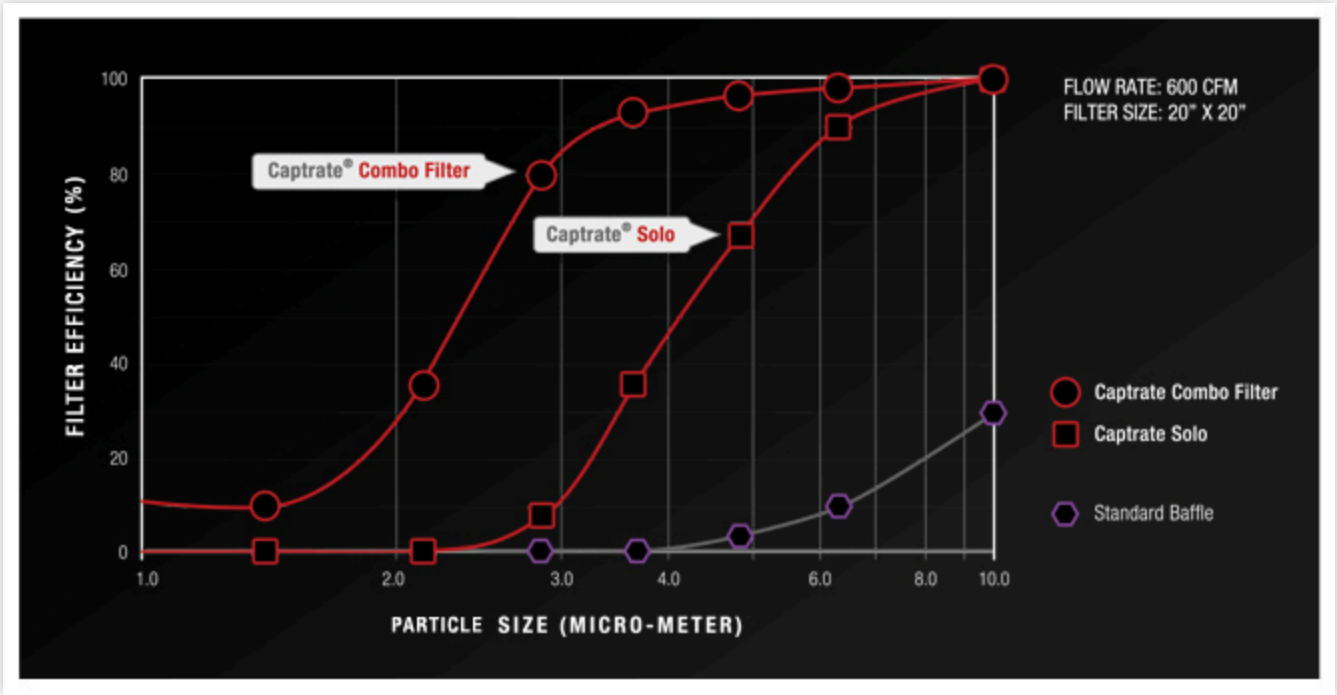
Constructed of Stainless Steel

CaptiveAire offers Kleen-Gard® Baffle Type Grease Filters to be used with Type I hoods. The self-draining filters are constructed of stainless steel. The standard baffle filters is designed for light duty grease applications.

Standard Features & Benefits

- **Construction** - Stainless steel provides added durability and corrosion resistance
- **Grease Extraction** - Promotes sanitation by removing grease from the air flowing through filters and draining it safely away
- **Listed** - Listed and meets UL Standard 1046

Filter Collection Efficiency Comparison



The filters were tested to ASTM Standard F2519-05 by an independent third party. The purpose of the ASTM standard is to determine the grease particle collection efficiency of filters used in commrecial kitchens to capture grease effluent prior to entering the grease duct.
