

SPECBUILDER
**STREAMLINED
 PRODUCT SIZING
 SOFTWARE**

CaptiveAire's free and proprietary equipment sizing software gives users the freedom to rapidly learn about products, size equipment, generate product specifications, and contact sales and engineering staff from any Internet browser.

Specify in Seconds

- Rapid specification saves you time, quickly generating submittals, drawings, Revit files, etc.
- Zip code data imports geographical criteria to streamline unit sizing, save time, and ensure accuracy
- Mobile friendly interface allows for easy specifications on the go

User Friendly Interface

- Simple, intuitive interface eliminates frustration
- Tool Box feature contains useful formulas, data, etc. for ease of use
- Ability to sort sizing results by efficiency, sound rating, and other metrics

Web Based Software

- Quickly access from any Internet browser—no downloads needed
- Specify without signing in—no account registration required

Sales Support at Your Fingertips

- Quickly find your local sales and service reps based on your location
- Contact CaptiveAire engineering support for any questions you have
